Sir:

Applicant submitted the attached Revocation of Power of Attorney With New Power of Attorney (the Revocation and New Power) on April 3, 2006 by U.S. Post Office Express Mail Service. Subsequent to that mailing, we discovered that the application serial number on the transmittal form was incorrectly typed as 11/719,735 instead of 10/719,735. The serial number on the Power of Attorney was correctly identified. The undersigned was informed by the Examiner that the Revocation and New Power has not yet been logged as having been received in the Group Art Unit and suggested that the undersigned re-submit the Revocation and New Power by facsimile. Please enter the attached Revocation and New Power for the above identified application. A substitute transmittal page with the correct Serial Number is provided.

Respectfully submitted,

Christine R. Ethridge

(Typed or printed name of person mailing paper or fee)

(Signature of person mailing paper or fee)

NOTE: Each paper must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

NOTE: The label number need not be placed in each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter for a fee, along with the certificate of mailing by "Express Mail." Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.
